Material Features	Shockproof, Waterproof, Recyclable

Product Feature And Application

As an independent bag, **Air Column Cushion Bag** needs to be manually inflated when used and can be used with an inflator or a small inflator pump. Because of the hat design, it can protect the product 360 degrees in all directions, greatly reducing the damage rate of the product, and is deeply loved by market users.

Air Column Cushion Bag Q type is widely used in various industries, such as red wine, fragile products, ceramic crafts, electronic products, food, daily chemical products, etc.

Air column bag with a hose and pump

Product Details
