Detail Introduction :

Small Bubble Wrap film roll 40cm width

Product Introduction

1.**Small Bubble Wrap film roll 40cm width** is mainly used to replace traditional EPE packaging. Save packaging time and transportation costs, save warehouse space.

2.Product Parameter (Specification)

Product Series	Material	Size	Thickness(um)	Packing	Size/ctn	Bubble Type
Air Bubble Wrap	HDPE	400x300, 500m/roll	15 um	2 rolls/ctn	360x180x410mm	Small Bubble

3.Product Feature And Application

The bubble diameter of **Small Bubble Wrap film roll 40cm width** is only 2cm ,smaller than the conventional bubble diameter on the market.And usually its thickness is 15um recommended. It is mainly used to replace EPE packaging. Because of the tear line, it is more convenient to use and improve packaging efficiency; it is inflated when used, saving transportation costs and warehouse space, and its compression resistance is stronger than traditional packaging products.

It is widely used in all walks of life and is currently mainly used for product transportation and packaging, such as electronic instruments, ceramics, handicrafts, household appliances, bicycle shops, kitchen furniture and paint products, glass products and precision instruments.

4. Product Details
