3. Product Feature And Application

[Air Pillow film tube Wrap Roll 400X140](#) can be used flexibly. With air tube film, you don't need to put the air in until you need it, freeing up valuable space and cutting costs. These rolls of the film take up a fraction of the storage space of their bulky counterparts but do their jobs just as effectively.

Once filled, the resulting cushions are strong enough to withstand the biggest of bumps and knocks, but soft enough to ensure contents are kept snug and safe.

It can prevent damage to the goods during transportation; environmentally friendly, degradable, recycled, and reused.

It is widely used in all walks of life and is currently mainly used for product transportation and packaging, such as electronic instruments, ceramics, handicrafts, household appliances, bicycle shops, kitchen furniture and paint products, glass products, and precision instruments.
